BEFORE MARCH 31st, 1935

Forms may be procured from any Provincial Government Office, or from any Bank, or direct from the Superintendent of Income Tax, Edmonton.

All persons residing, employed, or carrying on business in Alberta, are liable to a tax on income, subject to exemptions provided for in the Act.

Full information re exemptions and method of filing returns is contained on the forms themselves. Further information will be furnished on application to

INCOME TAX BRANCH

Qu'Appelle Building, Edmonton

AVOID PENALTY BY FILING NOW!

HON. J. R. LOVE

Provincial Treasurer

E. M. GUNDEKSON,

Supt. of Income Tax

The people who are stage-managing the business practices enquiry at Ottawa have great faith in the Canadian educational system. When a boy comes out of school, they seem to think he knows all there is to know about business; he requires no apprenticeship, no training. He is ready to take on an executive job at a big salary.

Many of the outstanding business leaders of Canada started their business lives in jobs that paid them \$1 a week or little more. They were glad to get an opportunity to become associated with an established business; to start in on the ground floor and learn a trade or profession; to go to school under capable and experienced men and gradually work their way upward, learning as they climbed.

But those days have passed. If a concern takes in a bright, young lad gives him a chance to learn something about business, pays him a modest wage during the period when he is of little value but is simply learning a trade, it is taking a large chance of being summarily exposed in the public prints as an exploiter. The men who gave their first jobs to, let us say, Sir Charles Gordon, Sir Herbert Holt, Thomas Bradshaw, Timothy Eaton and other Canadian business executives of this and other generations, who started at the bottom and reached the top, probably did not realize that they were chiselers. The ambitious young lads who started out with them no doubt did not realize that something was being put over them, that they should have received from the first day the same salaries being paid to experienced men.

The business practices enquiry has revealed some instances of fully experienced workers being exploited and paid miserably low wages. But as one pours through the evidence to isolate these examples for study and discussion one observes that the commission and its counsel are hopelessly confused between really important evidence of this kind, which deserves to be blazoned in the public prints in order that publicity may bring remedy, and evidence concerning young lads just out of school, getting their start in life, apprentices, entirely inexperienced workers, and men for whom temporary jobs have been created to give them a chance to earn a few dollars in a time of stress.

Collholme M. D.

The annual meeting of Collholme M. D. was held last Saturday at the Collholme School.

The meeting was called to order by Geo. Hutchison, returning officer.

The minutes of last annual meeting were read and adopted.

A general discussion of municipal affairs followed, after which the financial statement was read and freely discussed.

At 3 p. m. nominations were called for, for the following wards nos. 2, 4 and 6. Nominations were as follows: Ward 2, A. Spreeman, Acclamation; Ward 4, J. D. Laughlin, Acclamation; Ward 6, R. Stewart and L. Dressel.

Reeve Paetz gave a summary of municipal business and undertakings for the year 1934. Councillors Warren, Spreeman, Laughlin, Young and Stewart gave reports of work done in their respective divisions during the year.

Harrington that we ask Department of Municipal Affairs for a speaker to speak in various parts of Municipality explaining details of Department taking over the district after which a vote to be taken, to ascertain the wishes of the people as to whether they wish to remain a municipal unit or go into the unorganized territory. Motion that we continue as a municipal unit. Carried.

The valentine card party and dance given by the Chinook Women's Institute last Friday evening was a great success.

The bridge prizes were won by Mrs. Elford and Mr. Len Cooley; consolation by Miss Otto and Mr. G. McDonald.

The domino tournament proved very popular and the prize winners were Helena Rosenau and Mr. Rideout.

A bountiful lunch was served before the dancing started, the tables being tastefully decorated. The music provided by the Excel orchestra was excellent.

A hearty vote of thanks is tendered by the Institute to all those who helped, either by donations or services toward making this annual affair a success.

The sum of \$35.00 was realized.

The present spell of fairly mild weather is easing up on the feed problem, farmers having to make heavy inroads on their stock during the cold snap.

The situation in regard to flax this year is, if anything, intensified; in that Canada is spending more money abroad every year in the importation of this common grain. Last year, although the total flax acreage fell off somewhat, a survey reveals that there was a considerable increase in the acreage seeded in the more northern provinces. Reports from these new flax growers indicate that their crop was generally satisfactory in those cases where it was seeded early. In fact, those reports indicate that in many cases, the flax crop withstood the late spring frosts and drought as well, if not better, than did wheat. The same is true of the early fall frost in cases where maturity was equal to that of our wheat. In other words, the contentions of the university research experts appear to be well supported by yields ranging from 6 to 10 bushels under unfavourable conditions, and up to 25 under good conditions.

Doug Smith of Cereal was a Chinook visitor Wednesday.

A meeting of the committee appointed by the School Fair Association was held Monday afternoon in the school. It was decided to put on a play and dance in aid of the funds, the committee in charge being Mrs. L. Cooley and Miss Jensen. The other members of the committee present at the meeting were Messrs Dressel and Todd. Mr. Dressel has charge of the arrangements for the dance.

Dean Tompkins who won the first prize for seed grain being awarded a short course at Edmonton, returned Sunday morning.

The Ladies Card Club met Tuesday night at the home of Mrs. Chapman. Honors went to Mrs. Todd and Mrs. Peterson. The Club will meet next Tuesday at the home of Mrs. Robinson.

Ice Carnival

The Chinook Hockey Club will hold an Ice Carnival Friday evening, February 22nd. Prizes will be awarded for best fancy dressed adult and children couples, for the best comic costume, also for races both single and couples.

Judging begins at 9.30 p. m. Admission 15 and 10 cents.

Boy Scouts' Campaign

League of Nations. "They say I've got no army; but why should I want one with these allies?" (By courtesy of Pouch.)

His Excellency, the Governor-General of Canada, celebrating the coming visit to Canada this spring of the World Chief Scout, Lord Baden-Powell, by initiating a drive to increase the ranks of Canadian Scouts from 65,000 to 100,000, thus extending the benefits of Scouting to hundreds of Canadian communities now without an organized programme of any kind for their boys. The Scout movement as a whole accepted the challenge, but expansion demands

more trained leaders and more field work. To ensure the success of the enterprise and finance the Scout movement in Canada for the next five years, a Campaign to raise \$500,000 was inaugurated with a nation-wide appeal on February 18th by E. W. Beatty, K.C., J.L.D., Chairman and President of the Canadian Pacific Railway, who is also President of the Boy Scouts Association in Canada.

This Campaign has the hearty support of every thinking Canadian citizen.

VICTORIA set for WINTER GOLF FESTIVAL

Golf on sun-shine flooded courses over fairways and greens as springy and smooth as in summer, but with a minimum of rough, is the lure for the seventh annual renewal of the Empress Midwinter Golf tournament to be played over the scenic and championship links of the Oak Bay course at Victoria, B.C., February 18-23.

The lure of midwinter golf brings the ardent golfer from all parts of Canada and the United States, not to mention Europe, to compete in this now famous tournament, inaugurated seven years ago by the Empress Hotel, Victoria, and the Canadian Pacific Railway with a view to affine the world that Canada has in its courses on Vancouver Island, weather conditions that rival those farther south in winter time. There is no lack of prizes, and some of them rank high in the world of golf trophies.

The E. W. Beatty Trophy still remains the chief award, but the prize list has been augmented recently. The Victoria Chamber of Commerce set up its fine cup as the reward for an open amateur championship — the Beatty Cup being for handicap play in men's and women's divisions; the late Jack Mattson, noted British Columbia sportsman, added his cup for inter-district team matches played for by four-man teams, and the Victoria Rotary club put up a handsome rose bowl to reward the fair golfer who turned in the best gross hole.

For 1935, the new, short and tricky Oak Bay course of the Victoria Golf Club has been chosen as the scene of the 7th Empress tournament, with dates February 18-23 inclusive.

Lay-Out shows the first Green; the E. W. Beatty Cup; the Oak Bay Club House, and the Empress Hotel.

Beware The Danger Spots

The inauguration throughout Canada of new social services, and the extension of social services already existing, are policies to which it is now clear all political parties in Parliament are definitely committed. Since the beginning of the present century there has been a steady growth, not only in Canada but in all countries in the number and scope of these services of a social character, and it is now evident that the people of this Dominion are in favor of more and still larger and comprehensive services of this character.

This development is in line with modern trends and the new conception that all the people are responsible for the welfare of each individual citizen. We refer to this as a new conception, yet it is as old as civilization itself. Man is his brother's keeper and if and when man fails to discharge that responsibility to his fellowmen, then the very civilization which protects him will collapse. So it is that the great majority of people will be found to welcome the introduction and enlargement of a national programme of social services.

There are, however, one or two danger spots in connection with such a programme which the Canadian people will be well advised to recognize at the outset. These services are designed to be helpful to us as individuals and as a nation; let us therefore beware that they do not actually prove harmful.

The first danger to avoid is, that in our enthusiasm and commendable desire to provide social services, and to establish them upon a generous scale, we do not overlook it, and embark upon programmes which may prove to be beyond the financial capacity of the Canadian people to maintain. Social services such as old age pensions, mother's allowances, unemployment insurance, free medical services, etc., will cost an enormous amount of money annually. Some of these services are already costing the Federal and Provincial Governments many millions of dollars, but present expenditures are undoubtedly small in comparison with the cost of proposals now being advanced.

Each and every one of these social services can be provided and made possible by just one method, and that is taxation. That is, the community as a whole must through the payment of taxes provide the money which will be distributed through one social service or another to the people who are in need of such service. If fifty million dollars are required for, say the payment of old age pensions throughout Canada, then taxes which will yield fifty million in revenue to the government must be imposed and paid by the people. There is no other way. This fact must be recognized, together with the further fact that there is a limit beyond which people cannot pay taxes, and any social or other service which depends upon government taxes beyond that limit will find itself in difficulty.

Once established, experience has proven that these social services grow very rapidly and that expenditures largely increase. This experience indicates a second danger spot. It is this: So long as individual man and woman are required to look out for themselves and plan for their future, they will, as a rule, work, exercise some degree of thrift, and save against sickness and old age. In a word, self preservation will be one of the guiding rules of their life. But once it becomes an accepted and established fact that people will be provided for whether they are at work or not, that the community will care for them and all their life if and when sick, and that the community will support them throughout their old age and bury them when they die, then there is grave danger that the incentive which is now the great driving force in our human nature will become less keen, weaken and gradually die.

QUICKEST METHOD TO RELIEVE A COLD

1. Take 2 Aspirin Tablets.

2. Drink full glass of water. Repeat treatment in 2 hours.

3. If throat is sore, crush and stir Aspirin Tablets in a third of a glass of water and gargle. This eases the soreness in your throat almost instantly.

Follow Directions to Ease Pain and Discomfort Almost Instantly

When you have a cold, remember the simple treatment pictured here . . . prescribed by doctors everywhere today as the *quick, safe way*.

Because of Aspirin's quick-disintegrating property, Aspirin "takes hold"—almost instantly.

Just take Aspirin and drink plenty of water . . . every 2 to 4 hours the first day—less often afterward . . . If throat is sore, use the Aspirin gargle.

But be sure you get ASPIRIN. It is made in Canada and all druggists have it. Look for the name Bayer in the form of a cross on every Aspirin Tablet. Aspirin is the trade mark of the Bayer Company, Limited.

DOES NOT HARM THE HEART

Champion Bricklayer

Philip Lancaster, 24-year-old foreman in a brickyard at Hull, England, lays claim to the title of being the world's champion bricklayer. He laid 3,000 bricks in four hours, a record, he says. In the first hour he laid 908, a little better than 15 a minute.

HE FELT MISERABLE AFTER MEALS

Acute Indigestion Relieved by Kruschen

The treatment which put this man right must surely be worth trying in every case of indigestion. Read what he says:—

"Two years ago I suffered very much from indigestion, loss of appetite, and a most severe pain in my back. Food soured in my stomach. I felt most miserable after meals, and had no desire or appetite for them. A friend advised me to try Kruschen Salts. I did so, and I am most happy to testify that after a short time I felt the greatest relief. I continued taking Kruschen till I felt myself quite better and a new man. I feel as light-hearted as I did twenty years ago."—W. B.

What Kruschen did for him it will do for everybody else who suffers from indigestion as he did. The fact is that "the little daily dose" of Kruschen first stimulates the flow of gastric juices to aid digestion, and then ensures a complete, regular and unflinching elimination of all waste matter every day.

New Gold Strike

Sensational Discovery On The North Shore Of Lake Athabasca

Three aeroplanes are busy freighting crews, diamond drill equipment and supplies to what is hailed as a sensational new gold strike at Beaver Lodge, on the north shore of Lake Athabasca.

Already there are more than 200 men at the camp, hastily constructed, and more stakers are on their way. Ten dog teams recently left Fort Chipewyan for the scene of the discovery.

All reports say that Beaver Lodge is the greatest gold discovery in Canada in many years.

TELLS EXPERIENCE BEFORE A NOTARY

Mrs. Albert Aubrey, 1605 Maisonneuve St., Montreal, relates in a sworn statement how Fruit-A-Tives bettered her health. She now enjoys life after years of poor health and, so you may be sure of it, Mrs. Aubrey tells of her experience in a statement made under oath. She says,—"I was troubled for years with dizzy headaches. My bowels did not function regularly. I had no appetite. I had no sleep. It was difficult for me to do my work. I tried a great many laxatives but found most of them too violent. Finally I started taking Fruit-A-Tives. In a very short time my health became greatly improved. I now enjoy life much more than before I learned about Fruit-A-Tives." Copy of Mrs. Aubrey's complete sworn statement may be sent on request. Write Fruit-A-Tives Limited, Ottawa, Canada. FRUIT-A-TIVES—50c and 50c EVERYWHERE.

Little Journeys In Science

COSMIC RAYS

(By Gordon H. Guent, M.A.)

Glass becomes negatively charged when rubbed with cat's skin, but positively charged when rubbed with silk. Also, a strip of celluloid becomes negatively charged when drawn between the fingers. In order to detect and measure the electric charges on any substance scientists have devised an instrument known as the electro-scope. A simple type of electro-scope consists of a bottle with a paraffin stopper, through which runs a piece of glass tubing. Passed through the glass tube is a piece of brass or copper wire from which are suspended two strips of gold leaf. A ball made of tinfoil is attached to the other end of the wire and is, of course, outside the bottle just above the paraffin stopper. Whenever the ball is given either a negative or positive charge the leaves fly apart in proportion to the amount of the charge. A rubber comb rubbed on a cat becomes negatively charged and if the comb is placed on the tinfoil ball some of this charge is imparted to the electro-scope and the leaves will fly apart. Since the charge is negative, another negative charge will cause the leaves to spread still farther apart, whereas a positive charge will cause the leaves to fall together before again flying apart. In this way the kinds of charges may be determined. When even the best of electroscopes are charged it is observed that the gold leaves slowly come together again. This means that some electrically charged particles from the atmosphere are neutralizing the charges on the leaves. Scientists set out to discover what was causing this discharge of an electro-scope and found that it was due to certain rays which came to the earth from outer space. They are called cosmic rays.

Many attempts have been made to stop the natural leak or discharge of an electro-scope. These attempts have always failed despite the use of the most perfect insulators and the protection of the electro-scope by lead shields, several feet in thickness. These experiments suggested that there exists an unusually penetrating radiation of feeble intensity.

Scientists have carried electroscopes to points near the two poles of the earth, at the equator, and at various other latitudes. Electroscopes and similar indicating and recording devices have been sent up into the air in sounding balloons to altitudes of over 20 miles, and have been carried to altitudes of 25,000 feet by airplanes in various localities and have been taken to high mountains as well as to depths as great as 1,000 feet in lakes. All experiments show that the rays come from above the earth and so they have been called cosmic rays. Outstanding among the various investigators in this work are two American scientists, Millikan and Compton.

Country Happeninga

The young people's Friendly Circle was entertained at the Peyton home last Tuesday evening. The evening was spent in playing crazy 500 which delighted everybody. After lunch dancing took place until early in the morning.

Last Saturday over twenty-five people took part in the tabogan and skiing sports at the Modseley hill. Everyone reported having a good time.

Langford had their Whist Drive and Dance on Feb. 8th. A large crowd attended, seven tables being played. The prizes were won by Mrs. Leisack and Mr. Strand; consolation by Gwen Bunney and Harold Robison. The music was greatly appreciated. The musicians were Messrs Watson with his saxophone and Milton Johnson with his mandolin. Mrs. Mason Monica Bunney and Gladys Strand took turns playing the piano. We're hoping to see a large crowd at Langford again.

Two sleigh loads of young folks attended the Concert and Dance at the Austrian Hall on Saturday evening, February 9. All reported having a good time.

A large crowd attended the boxing match at Lumbergh Glen Farnham is looking first class with a patched up lip. Ray Osterberg is nursing his nose and face. Their victor was Fred Hill from Clemens.

Born--To Mr. and Mrs. R. Marr on Monday February 18, a daughter.

Mrs. Rudy returned home Tuesday morning.

D. Bell motored to Hanna Wednesday.

The Chinook "Hotshots" Junior Hockey Team went into the Cereal tribes camp and returned with several scalps.

The "Hotshots" with the help of the Goddess of luck and some fine sharpshooting and equally fine defensive hockey defeated the Cereal team to the tune of 3-1.

It was a great game showing lots of combination plays and close checking. Cereal played better combination hockey than Chinook, while they relied more upon individual rushes. During the third and fourth periods Chinook settled down to a good brand of defensive hockey to prevent Cerealscoring. Although Chinook skated off the winners there were no hard feelings.

Miss Mildred Milligan returned from Drumheller Tues

Miss Marjorie Lee visited friends in Hanna on Wednesday.

Here and There

Employed on railway construction 50 years ago, Thomas D. McGillivray, 82, of Edmonton, claims the distinction of having placed the last carload of dirt on the C.P.R. when that trans-continental line was completed to the Pacific coast in 1912. Despite his advanced age he still has a clear recollection of incidents on construction.

Miss Mary McKell, superannuated in December after over thirty years on the Upper Lakes as stewardess of the C.P.R. Great Lakes Steamships, spent almost her entire service as chief stewardess of S.S. Keewatin, sailing with her every season from her maiden voyage in 1908 until the close of the 1934 season.

Fortunes are being spent on research in the science of armaments but not one penny for research in the field of disarmaments, said Prof. Julian Huxley, famous grandson of the even more famous Thomas H. Huxley, in outlining the richness and functions of science, its shortcomings and possibilities, at the Lord Nelson Hotel, Halifax, recently.

"Our province will soon take an important place, if not the leading place, among the gold-producing countries of the world," stated Hon. J. E. Perrault, Minister of Roads and Mines of the Province of Quebec, in a recent address on "The Mining Industry of Quebec," at the Chateau Frontenac, Quebec City.

Interviewed at Victoria recently, N. R. Desrivieres, assistant passenger traffic manager, Canadian Pacific Railway, stationed at Winnipeg, said that indications pointed to a better all-around tourist season for 1935 over 1934 much improved though that year had been over previous tourist seasons.

Ski-joring behind a fast running horse; mushing with a team of huskies; skating, or ski-jing on the mountain trails; all come under the heading of real sport, is the view of Miss Dorothy Standish who reigns as Banff Winter Sports Beauty Queen during this year's season in the Canadian Rockies.

Harry Loder, tourist, travelling alone a highway near Banff by car recently, saw a golden eagle fly by the window of his car, and reaching out caught it by the neck and pulled it into the automobile. He turned the bird over to the Banff Zoo.

A forty-pole ski race, a forty-mile snowshoe race, motorcycle ski-joring, figure skating, ladies and men's hockey, championship speed skating, pony ski-joring, trap-shooting, ski-jumping and many swimming events in the warm pool, will be featured at the elaborate winter carnival at Banff on the week's programme beginning February 14.

Sailing recently on her fourth annual cruise around the world, which will take 150 days, with calls at thirty-three ports in twenty-four countries, Canadian Pacific Atlantic flagship, Empress of Britain, left New York, with close on 400 passengers. She will return to New York late in May.

Honoring Captain A. J. Halley, R. N. R., who retired from command of the Canadian Pacific liner Empress of Canada after thirty-four years with the C.P.R., shipmates and shore-side friends presided him with an engraved wrist watch at a luncheon recently aboard the ship. Captain Halley left the sea with forty-four years of service behind him on the seven seas.

THE CHINOOK ADVANCE

Published by Mrs. M. C. Nicholson every Thursday afternoon from The Advance Building, Main Street, Chinook, Alberta, and entered in the postoffice as second class mail matter.

The subscription rate to The Advance is \$1.50 per annum in Canada and \$2.00 outside of Canada.

The transient advertising rates in The Advance are—display, 40c per inch for first week and 30c for each succeeding week, providing no change is made. For heavy composition an extra charge is made for first week. Reading notices, 10c per count line. Legal advertising, 15c per count line for first week and 10c for each succeeding week. Cards of thanks, \$1.00.

Advertisements under this heading are charged at the rate of 50c for 25 words or less per week, with 10c for each additional 5 words. Three weeks for the price of two.

All letters addressed to the editor for insertion in The Advance, must be signed to show bona fides of the writer. Publication in all cases is subject to the judgment of the Publisher. We do not necessarily coincide with views expressed.
